Carrie,

My apologies, I got asked to assist with the Chemical Spill in Charleston, WV. I'm driving out there now. So I will not be able to make the meeting tomorrow.

Okay, that sounds good to me. I'm hoping to attend Linda's event too. Alex Mandell is also coming because of Metro. He attends CEP's meetings every month. ccd

Actually, I changed my mind. I will try to attend. Just in case there are any questions I can help with. Should be able to make it to Philly in time for the retirement party.

This would make it tough to make Linda's retirement, so I guess I will pass. If the Fire Commissioner has any major concerns I would be happy to meet with him another time.
